

NATIONWIDE PPSA SOLUTION FROM CYBERBAHN

SMART CORPORATE LEGAL SUPPORT SERVICES

We have strengthened our PPSA services and now offer a complete nationwide PPSA solution that combines the registration process with the search feature and debtor notification.

Our enhanced service makes all your pre and post tasks simpler and more efficient – minimizing data entry and reducing the risk of error. As an added feature, you may request to have any PPSA search summarized into one easy-to-read report.

And for expedited closings where you need an assurance of receiving PPSA information quickly and on time, we offer VERO – a service unique to Cyberbahn.

Personal Property security act (PPSA) searches and registrations

- Search, register, renew, amend, and discharge any liens in any jurisdiction across Canada
- Use the **copy** feature to duplicate registration information into other jurisdictions, eliminating data entry
- **Validation alerts** highlight any errors that may have been made, saving time and eliminating future amendments
- **summary Feature** with date/timestamp allows you to print, save, and store transactions
- **set and track expiry dates** of registrations with our convenient reminder system, showing the number of registrations expiring in a given number of days
- **store default details** into a database you create for commonly used registering agents, secured parties, debtors, and collateral that you can use when drafting PPSA filings
- **select language preference** for Quebec PPSA registrations

We offer an unrivalled and comprehensive PPSA service across Canada that Features:

PPSA Vero

Only Cyberbahn offers VERO (Verbal Electronic Report Overnight). VERO ensures that PPSA data is delivered electronically as soon as possible, regardless of report length, reducing some of the uncertainties in transactional closings. As an added bonus, the VERO report provides a chronological summary on the last page, making it easier to follow all of the borrowing activity on a long report. You can copy and paste from this report and use all regular PDF search functionality, making your information handling easy and accurate. The NEW PPSA VERO report can be ordered through our Ontario PPSA Search, Security Search, and Nationwide PPSA Registration services

VIN Verification

Authenticate all motor vehicles added as collateral to your PPSA registration. With just a click, our system will validate your motor vehicle and automatically populate the make, model, and year of motor vehicle without you having to worry about it. This will help you register correct motor vehicle information, save you time, and perhaps also prevent future amendments.

Debtor Letter

Select "Notification Letter" when adding Debtors to your registration, and we will automatically generate a request for a notification letter to be sent to the debtor. Once the registration has been successfully completed, we will generate and mail out the notification letter to the selected debtor. A copy will also be made available for your files.

Enhanced Search report (ESR)

Save valuable time by receiving all of your PPSAs summarized in one concise, comprehensive report. This report provides you with details about Jurisdiction, Statute and Office Searched, Debtor and Secured Party Information, general collateral and motor vehicle details, and any amendments.
